Professional Profile

Dedicated and skilled web developer with extensive experience in both front-end and back-end development. Proficient in user-centered design and video game development using platforms such as Unity and Unreal Engine. Fluent in Spanish and English, enabling effective communication in diverse environments.

Skills

- **Web Development:** Front-end and back-end development
 - **Design:** User-centered web design
 - **Database Management:** MySQL, Oracle, CockroachDB
 - **Frameworks:** Django, Node.js
 - **Languages:** HTML, CSS, JavaScript, Python
-

Soft Skills

- Team collaboration and effective communication
 - Strong problem-solving abilities
 - Adaptability and quick learning
 - Attention to detail and commitment to quality
-

Technical Knowledge

- Extensive experience with relational databases, specializing in database design, complex querying, and performance optimization.
 - Proficient in building robust web applications with Django and developing scalable server-side solutions with Node.js.
-

Projects

1. **Inventory Management System**

Developed a web-based application to improve inventory tracking for a small retail business. Established a MySQL Workbench connection for effective database management.

2. **Customer Relationship Management (CRM) System**

Worked on a web-based application aimed at enhancing customer interactions and data management for a mid-sized company. Established an Oracle database connection for efficient customer data management.

3. **Real-Time Analytics Dashboard**

Developed a dashboard for a data-driven startup, focusing on aggregating and visualizing user behavior data. Implemented a CockroachDB connection to manage distributed data effectively.

Education

Bachelor of Science in Computer Science

University of Technology

City, State: New York, NY

Year of Graduation: 2023
